MetroMax iQ® Storage System

Interchangeability: MetroMax i® and MetroMax Q®, shelves, posts, and most accessories are uniquely interchangeable making the iQ system adaptable to your specific application.

Longer-Life Durability and Performance: Corrosion proof MetroMax i® has an innovative polymer design and the performance of stainless steel at a fraction of the cost. MetroMax Q® has an advanced polymer and epoxy coated steel design that offers superior performance versus wire shelving. All shelves hold as much weight as wire shelves, but also offer protective polymer surfaces for long life and easily removable shelf mats that can be cleaned in a fraction of the time of wire.

Designed with innovative polymers for longer-life product performance, easy-to-clean surfaces to promote a cleaner environment and higher level of safety, interchangeable components for maximum flexibility, interactive on-line tools . . . a truly unique way to improve operational efficiencies, productivity, and ultimately ROI.

Improved Cleanability: iQ System shelves have removable polymer mats that are easily cleaned in sinks, wash or dish machines. Cleaner shelves promote safe environments.

Storage Optimization: iQ System accessories contain, compartmentalize, and organize your stored contents to maximize every square inch of storage space. Smooth polymer components protect fragile packaged items.
